

ISLE OF WIGHT OPEN DAY

Many thanks to all our customers and suppliers who supported our Open Day on the Isle of Wight. The site at Brickfields in Ryde provided a great space to show off our New Holland tractors, agricultural, construction and garden machinery.

C&O Construction, the new construction division within C&O Tractors, was well and truly launched with an impressive display by Wacker Neuson, including a customer demo area. Greeting visitors to the site was an impressive Merlo Roto 45.21 MCSS with its boom extended to the full 45m and New Holland Construction mini-excavators formed part of the show display.

The New Holland T7.225, launched as part of the new T7 Tier 4B range in 2015, took centre stage in the tractor display, which comprised models from across the full New Holland family, alongside the New Holland Precision Farming display kit, giving customers the chance to try out New Holland's GPS guidance systems on a simulator.

Six models of Polaris utility vehicles were at the Open Day, the different configurations showing the versatility of the models. Also on display were Can-Am quads, machinery from Shelbourne Reynolds, Alo Quicke loaders and attachments, Warwick trailers, Merlo telehandlers and garden machinery from Honda, Stihl, Mountfield and Stiga.

More pictures from the event are online on our facebook page at [facebook.com/candottractorsltd](https://www.facebook.com/candottractorsltd)

Combine Evening Join us on 22nd June for our Combine Harvester Event

From 4pm - New Holland Combine Harvester owners and their operators are invited to attend Operator Refresher training, to ensure that you and your machine are ready for harvest 2016.

From 7pm - Everyone is invited to join us for a Combine Harvester and PLM Open Evening. Take a closer look at New Holland Rotary and Conventional harvesters, meet the New Holland harvester experts and find out more about PLM, New Holland's GPS guidance system. Refreshments provided.

Last chance for out of season service rates

With the grass starting to show signs of life, although very slowly, the seasons are most definitely on the change. The workshops here at C&O Tractors have been busy over the winter months with customers taking full advantage of our discounted, out of season servicing rates. We are running this discounted rate right up until the end of May, but there is limited availability so please contact your local depot to book your machinery in for service and repair.

With modern tractors and machinery becoming more and more technologically advanced it is crucial your equipment is serviced by manufacturer-trained technicians, using genuine spare parts. This not only adds residual value to the machine but keeps your kit working when the pressure is on. Using cheaper, non-genuine parts and lubricants may save money in the short-term, but will eventually cost you time and money by not delivering the right level of protection to your engine and transmission assembly. By having your local New Holland dealership look after your machinery you can be assured that any issues can be rectified quickly and you will receive the latest software updates. Having access to aftersales support from all of our suppliers is invaluable to ensuring you get the maximum backup if things go wrong.

WACKER NEUSON

all it takes!

Wacker Neuson have released new models of their standard tracked mini-excavators, zero tail swing tracked mini-excavators, wheeled excavators, wheeled dumpers and tandem vibratory rollers.

At C&O Construction we are working with Wacker Neuson to deliver you quality construction machinery. After your sale C&O are here to support you, through our network of workshops, trained technicians and parts teams in Dorset, Wiltshire and on the Isle of Wight.

- ▷ Austrian build quality
- ▷ 3 years manufacturer's full warranty
- ▷ Crab steering mode
- ▷ Low whole life costs
- ▷ Good residual values
- ▷ Assisted finance available on excavators

- Manoeuvrable, compact roller models for first-class compaction in road and highway construction
- Front and rear drum, each with two vibration levels
- First-class compaction quality due to the large drum diameter combined with a low machine centre of gravity
- High level of tipping safety thanks to the low work platform and the articulated pendulum joint
- RD18: Clear sided curb clearance allows flush rolling on both sides thanks to the unilateral drum support

Standard tracked mini excavators

ET65
ET90
ET145

Zero tail swing tracked mini excavators

EZ53
EZ80

Wheeled excavators

EW65
EW100

Wheeled dumpers

DW50
DW90
Swivel Cab

First class performance, sophisticated technology: With the rollers in these weight classes, you can move safely everywhere - even in confined areas.

Tandem vibratory rollers

RD18-80
RD27-120
RD45-140
RD40-130

- Articulated pendulum joint
- Folding ROPS safety frame
- Vibration reduced operator station
- Central lifting point
